

CONSEC'10  
Sixth International Conference  
on Concrete under Severe Conditions.  
Environment and Loading.  
<http://www.consec10.com>  
Mérida, Yucatán, México  
June 7-9, 2010

Attendees/4/2009/PCB  
Subject: Fifth announcement (Review process status, new  
deadline for reviewers, general information)

November 29, 2009

Dear authors:

We have advanced in the reviewing process of the papers, and we are thankful for the support that we have received from the reviewers in this respect. As you know, we have received many requests for extension of the deadline to submit the draft papers, mainly due to closed deadlines from other congresses. Also, we were pleased to know about new authors that just learn about this event.

We have until November 30<sup>th</sup> as a deadline to finish the reviewing process. At that time we will have the review for the papers submitted on time. For the papers submitted after the original deadline we will have the review until December.

On the other hand, unfortunately, we had experienced some technical problems with the web site for CONSEC'10 (login and contact address) that had delayed the reviewing process. In order to make more fluid the communication we ask you to contact me directly ([pcb1963@gmail.com](mailto:pcb1963@gmail.com)) or the vice-chairman Eric Moreno ([emoreno@uady.mx](mailto:emoreno@uady.mx)) with respect to any question about the congress or the reviewing process. We apologize for any problems that this situation caused you.

With respect to the Congress let us anticipate you that, for the first time, CONSEC'10 will honor distinguished members of our community. Special sessions to honor them will be prepared and they will receive a special recognition during our last thematic dinner: We will send details about these special sessions during February 2010.

Best regards,

Dr. Ing. Pedro Castro Borges  
CONSEC'10 Organizing Committee  
Chairman
